BRITISH CURRICULUM

REGGIO EMILIA APPROACH

RAINTREE
INTERNATIONAL SCHOOL

Raintree International School is a leading kindergarten set within a lush, green environment in Bangkok. Founded in 2017, Raintree offers a holistic early childhood programme for children aged 1-6. In a safe and nurturing setting, we combine the British curriculum with a Reggio Emilia-informed philosophy. Above all, Raintree places strong emphasis on fostering **creativity** and **collaboration**, while nurturing the development of every unique child within our **community of lifelong learners**.

Creativity.

Collaboration.

Community of Lifelong Learners.

OUR CURRICULUM

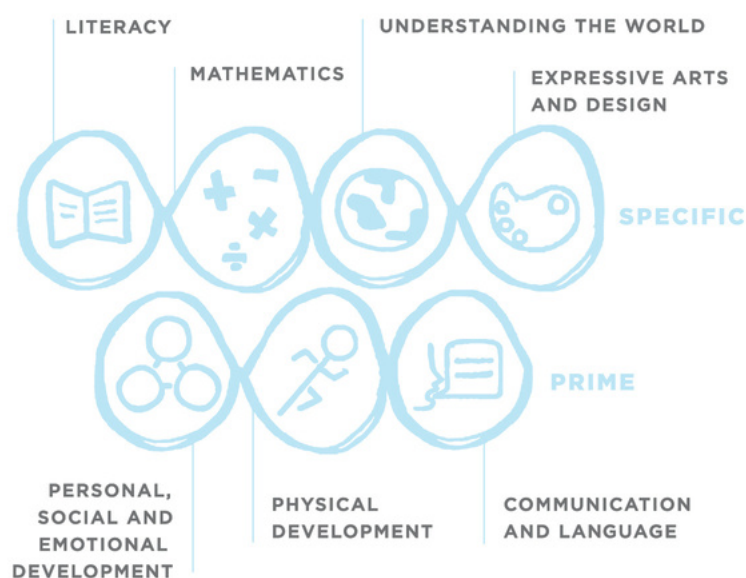

Positively equipped with resilience, confidence, empathy, self-regulation and effective communication skills, our children become empowered to thrive within a constantly evolving society.

The Raintree curriculum is based on **the British Early Years Foundation Stage (EYFS)**, combined with a **Reggio Emilia-informed teaching philosophy** that encourages children to learn through self-exploration and inquiry, guided by their own interests.

Our approach prepares children to meet the challenges of the future by helping them develop the skills they need to succeed in all aspects of life. Positively equipped with resilience, confidence, empathy, self-regulation, and effective communication skills, our children are empowered to thrive in an ever-changing society.

Our nursery and kindergarten curriculum is designed to enable children to learn through hands-on discovery and collaborative play. Our teaching team are experts in creating meaningful learning experiences that support exploration in line with age-appropriate developmental milestones.

THE 7 AREAS OF LEARNING

The Early Years Foundation Stage (EYFS) is a play-based framework that sets out the learning and development stages for children as they grow from birth to the age of five, recognising that children develop more rapidly during these early years than at any other time in their lives. The framework ensures that children are provided with a broad range of knowledge and skills to build a strong foundation for both school and life.

The EYFS outlines seven important, interconnected areas of learning. Of these, three are Prime Areas, which are crucial for building children's capacity to learn, form relationships, and thrive within their environment. These three Prime Areas provide the foundation for the remaining four Specific Areas of learning.

PURPOSEFULLY DESIGNED LEARNING SPACES

As one of the few purpose-built early years schools in Bangkok, our environment is specially designed to inspire learning while providing safe, stimulating, and age-appropriate facilities.

OUR FACILITIES

Library
